Line Setup

Main Flow

1. Scan the **Authorization code** provided by Sperantus, and it will automatically appear in the designated text field, opening a new screen.

- a. If the code doesn't show, click the text field and try scanning again.

2. In the **Line Setup** screen, click the **Item number** field and select the item to be packaged in the Line, then the item description will show.

The screenshot shows a form with two main sections. The top section has a label 'SKU' on the left and 'Work Order' on the right. Below this, there is a dropdown menu labeled 'Item number' with the value '105715' selected. Underneath the dropdown is a text field labeled 'Description' containing the text 'DSAMX (105715) 60Z OG BLU EF'. A right-pointing arrow icon is located at the bottom right of the form.

3. Click the right arrow , and the rest of the form will show. Click each text field to select or add the required data using the on-screen keyboard.

The screenshot shows a form with two text fields. The first field is labeled 'Work Order' and contains the text 'WO20369'. The second field is labeled 'Line' and contains the text 'LINEA 1'. Below these fields is an orange button with the text 'START VALIDATION'. A left-pointing arrow icon is located on the left side of the form.

The screenshot shows an on-screen keyboard interface. At the top, there is a text field labeled 'Work Order' containing the text 'WO-0010'. Below the text field is a keyboard with various keys, including numbers, letters, and symbols. The text 'WO-0010' is displayed above the keyboard, indicating the current input.

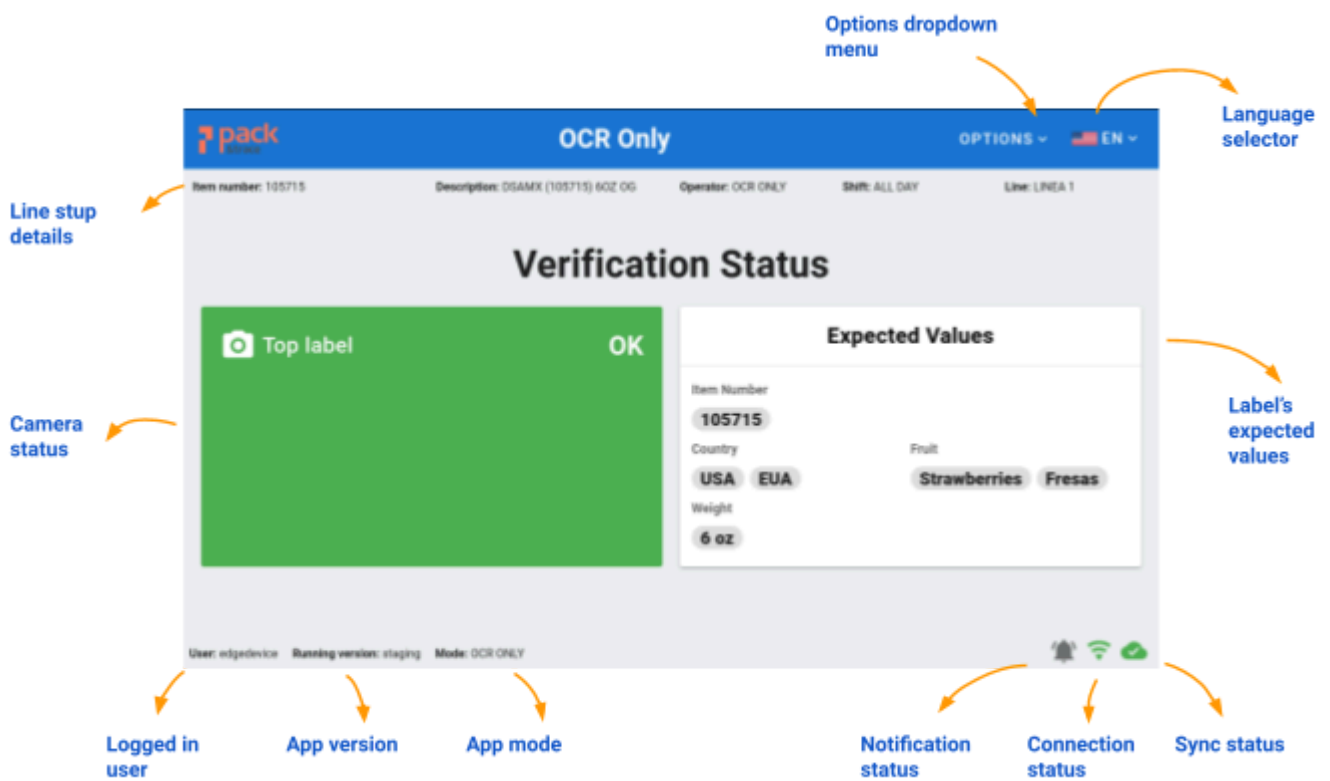

- a. If it's required to change the item, click the left arrow  to return to the previous screen.

4. Press  to finish the Line Setup.

Validation

After completing the Line setup, the system will enter the verification state. This means that the screen will exclusively display the OCR camera's connection status and details of the ongoing labeling. During this period, there is no need to perform any activities on the screen; just stay alert in case any connection issues with the camera arise.

Screen components

Camera connection status

Online camera - OK

In this state, the labels are passing correctly and are being detected.

Verification Status

 Top label OK	<h4>Expected Values</h4> <table><tr><td>Item Number</td><td>105715</td></tr><tr><td>Country</td><td>USA EUA</td></tr><tr><td>Weight</td><td>6 oz</td></tr><tr><td>Fruit</td><td>Strawberries Fresas</td></tr></table>	Item Number	105715	Country	USA EUA	Weight	6 oz	Fruit	Strawberries Fresas
Item Number	105715								
Country	USA EUA								
Weight	6 oz								
Fruit	Strawberries Fresas								

Offline camera

In this state, the system is not detecting a connected camera, so the labels are not being validated. To fix the problem it is necessary to connect and power on the camera.

Verification Status

 Top label OFFLINE	<h4>Expected Values</h4> <table><tr><td>Item Number</td><td>105715</td></tr><tr><td>Country</td><td>USA EUA</td></tr><tr><td>Weight</td><td>6 oz</td></tr><tr><td>Fruit</td><td>Strawberries Fresas</td></tr></table>	Item Number	105715	Country	USA EUA	Weight	6 oz	Fruit	Strawberries Fresas
Item Number	105715								
Country	USA EUA								
Weight	6 oz								
Fruit	Strawberries Fresas								

No read camera

It's when the camera is connected but detecting many empty values. To correct the issue, we will check that the camera is pointing directly at the labels and is focusing correctly.

Verification Status

 Top label NO READ

Expected Values

Item Number 105715	
Country USA EUA	Fruit Strawberries Fresas
Weight 6 oz	

Standby camera

It's when the camera is connected correctly, but labels are not passing. As soon as the labeler starts and the labels are detected, the camera will be back online.

Verification Status

 Top label STANDBY

Expected Values

Item Number 105715	
Country USA EUA	Fruit Strawberries Fresas
Weight 6 oz	

Troubleshooting and error handling

Blocking Errors

These critical errors can affect the proper functioning of the app and will appear as a blocking dialog screen when there is a high risk of data loss and critical labeling inaccuracies. Such issues could adversely affect the end-users, leading to negative consequences and potential penalty fees. **It is crucial to address and resolve these errors promptly to ensure the app operates smoothly and serves its purpose effectively.**

When encountering an error, the system will prompt the user to enter the supervisor code. **Ignoring the error and attempting to enter the supervisor code three times will trigger the need for a higher-level unlock code, which is usually managed exclusively by Sperantus.**

Example of blocking error:

Date	Message	Instruction
2023-12-14 01:53:27 PM	<ul style="list-style-type: none">• VISION CAMERA: OCR MISMATCH: Top label does not match the expected SKU.	Check that the correct label is being used. If the problem persists, please contact support@packandtrace.tech.

Enter the unlock code

UNLOCK

Types of Errors and How to Solve Them

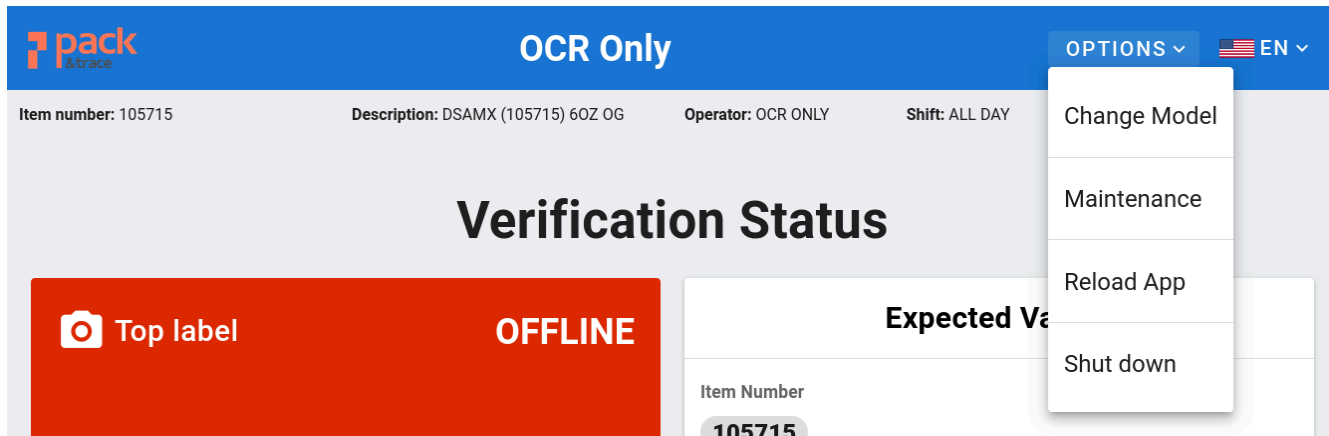

Mensaje	Corrección
VISION CAMERA OCR MISMATCH: Top label does not match the expected SKU	Make sure that the correct labels are being used according to the item that was set up to be packed on the production line.
OUT OF SYNC: Edge has not synced to the server for more than 16 hours.	Resolve the network issue. If an immediate solution isn't possible, contact Sperantus for a temporary fix.

FAQ

How to change the item during the packaging process?

You can change only in instances where there are no completed or ongoing cases. However, that will end the packaging process to start a new one.

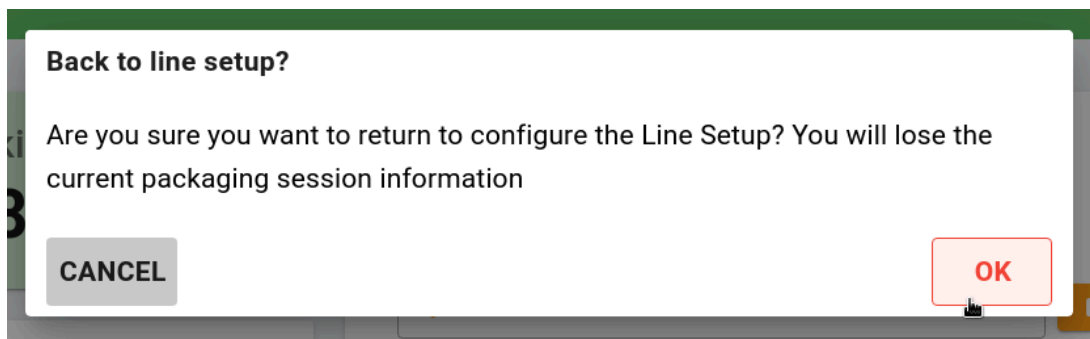

1. Start by pressing the **Options** button to open the drop-down menu.

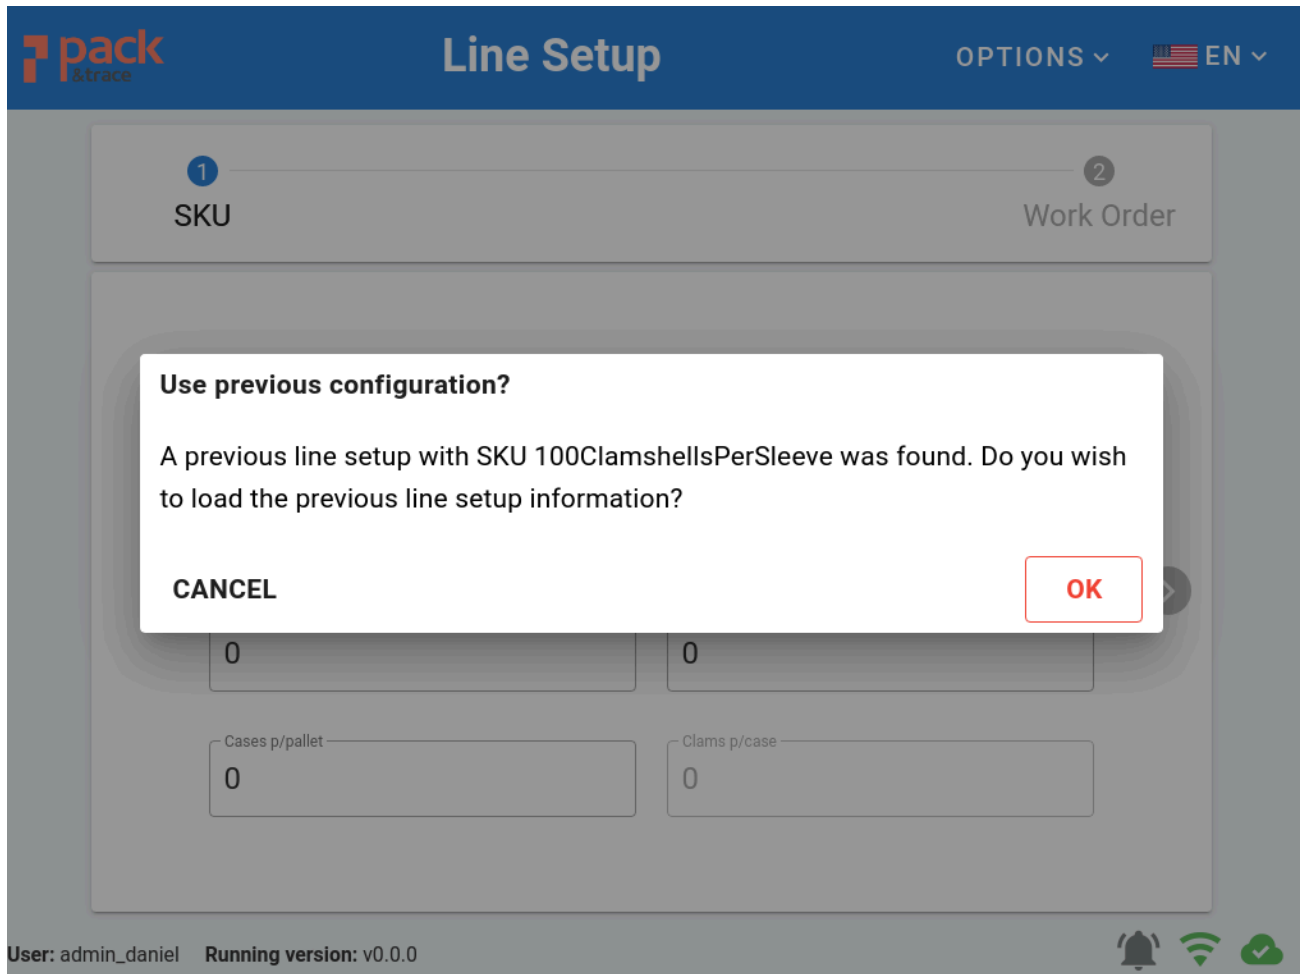

2. Press the **Change Model** option

3. A confirmation message will show and by accepting it, the current packaging process will end. Then it'll be necessary to start a new Line Setup process.

- When starting the new Line Setup the system will ask for a confirmation to use the previous item setup. Press CANCEL to change it or OK to use it.

How to change the language of the application?

1. Click the flag button in the top bar.

2. Select your desired language (English or Spanish).

3. The system will now be displayed in the chosen language.

A screenshot of the application interface in Spanish. The top bar is blue and contains the 'pack & trace' logo, the text 'OCR Only', and an 'OPCIONES' dropdown menu with a Spanish flag and 'ES' dropdown arrow. Below the bar, there are several data fields: 'No. de Item: 105715', 'Descripción: DSAMX (105715) 6OZ OG', 'Operador: OCR ONLY', 'Turno: ALL DAY', and 'Línea: LINEA 1'. The main heading is 'Estado de verificación'. On the left, there is a green box with a camera icon, the text 'Etiqueta superior', and 'OK'. On the right, there is a white box titled 'Valores Esperados' containing the following information: 'No. de Item: 105715', 'País: USA, EUA', 'Fruta: Strawberries, Fresas', and 'Peso: 6 oz'. At the bottom left, it says 'Usuario: edgedevice Version actual: staging Modo: OCR ONLY'. At the bottom right, there are icons for a notification bell, Wi-Fi, and a checkmark.
